

FRMA families,

Each student's Chromebook is an important tool which they use throughout their classes for a variety of academic tasks. It is important that students have their devices charged and ready to go at the start of each day. Please help us support student readiness by having your child plug in his or her laptop each night before they go to bed to ensure the Chromebook is ready for the next school day.

Our teachers thank you for your support!

Please be aware of these messages this week:
